NAIDOC WEEK**

A fantastic day celebrating NAIDOC in Brewarrina and engaging with members of the community. A successful opportunity to promote the importance of health and the need to Get up! Stand Up! Show Up! for Health.

**What we achieved:**

- Updated patient biographics for Communicare by filling out client intake forms for members of the community.
- Completed OBS evaluations
- Started the discussion around health and making it a priority.
- General conversing with the community to build relationships and establish the importance of trust and respect.
